

Ramesh Kannan

Data Analyst | Python Developer | Machine Learning Engineer

+91 93455 63640 | rameshkannan067@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in Python development, Data Analytics, and Machine Learning. Skilled in building scalable data-driven applications using Python, SQL, Pandas, Scikit-learn, Flask, and Power BI. Experienced in developing AI-powered solutions, predictive models, and automated analytics systems. Passionate about leveraging data and technology to solve real-world business problems and drive informed decision-making.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analytics: Pandas, NumPy, EDA, Data Cleaning, Statistical Analysis, Data Visualization

Visualization: Power BI, Excel, Matplotlib, Seaborn

Machine Learning: Scikit-learn, Feature Engineering, Model Evaluation, Predictive Analytics

Web & APIs: Flask, REST APIs, Streamlit

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Database: MySQL

EXPERIENCE

Machine Learning Intern | VCODEZ

Jul 2025 – Oct 2025

Chennai, India

- Built machine learning models using Python and Scikit-learn for predictive analytics.
- Processed and analyzed **10,000+** records through data cleaning and feature engineering.
- Improved model accuracy by **18%** through optimization and evaluation techniques.
- Automated repetitive workflows, reducing manual effort by **40%**.

PROJECTS

LLM Security Layer – AI Content Safety System | [Github](#)

Jan 2026 – Mar 2026

- Developed an AI security system to detect unsafe prompts and prompt injection attacks.
- Implemented BERT-based NLP classification, improving detection accuracy by **20%**.
- Reduced false positives through machine learning and rule-based filtering.

MENTOR.AI – AI Career Guidance Platform | [Github](#)

Jan 2026 – Feb 2026

- Built an AI-powered platform for skill-gap analysis and personalized recommendations.
- Improved career path prediction accuracy by **25%**.
- Designed an interactive interface to visualize learning progress.

AI-Powered Data Analyst | [Github](#)

Nov 2025 – Jan 2026

- Developed a data analysis system to generate automated reports.
- Performed data cleaning, transformation, and visualization using Pandas.
- Reduced manual analysis effort by **40%** through workflow automation.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

2022 – 2026

Apollo Engineering College, Chennai

CGPA: 8.14

CORE COMPETENCIES

- Data Analysis & Data Visualization
- Exploratory Data Analysis (EDA)
- Dashboard Development & Reporting
- Predictive Analytics
- Problem Solving & Analytical Thinking
- Business Insights Generation

CERTIFICATIONS

- PYTHON PROGRAMMING – CSI
- CCNA-1 – CISCO
- MICROSOFT OFFICE ESSENTIALS – MICROSOFT
